PONDS: ASSET OR LIABILITY?

By Larry Dobias, President RCA

The 24 ponds in Rivendell are a valued asset of the community. They are a necessary stage of a natural flood control mechanism in which surface water is contained, filtered and slowly released. Like any complex system, maintenance and good management are critical. Rivendell is responsible for the management of the ponds, as mandated under the permit issued by Southwest Florida Water Management District. Part of pond maintenance is minimizing the impact of erosion to the shorelines, some of which have lost 2-3 feet (or more) of bank. Many experts agree that the best approach for a community to keep its ponds healthy well into the future is the establishment of LMZ 's (3-foot "no-mow" zones) and planting aquatic vegetation to stabilize pond banks.

Without the relatively low-cost steps we have taken here in Rivendell, our ponds could have soon become a huge liability. Many nearby developments where erosion has not been properly managed have had to assess their homeowners to cover the cost of shoreline remediation, which can run into the millions. It is an intrusive and destructive process and the final appearance rarely looks good or natural.

In a continuation of our planting program, the current Board has approved a plan for additional aquatic plants to be installed this year at most ponds within the community, at an expense of \$14,000. If the pond near your property is lacking plants along shorelines, they will be coming soon. Applications for numerous grants have been initiated to offset the cost of these and future plantings. If additional money can be found in the operating fund, it may be applied to more pond plantings this year.

Rivendell appears to be at a tipping point. Had we ignored the problem, our ponds would have become a liability sooner rather than later. We believe the steps we have taken (the LMZ and the aquatic plantings) will preserve our ponds as an asset today and long into the future. It's imperative that Rivendell "owns" the management and maintenance of its shorelines if we want to continue to be that beautiful and unique community we all call home.

Easter Bonnet Parade!

by Jim and Marilyn May

MSC Communications Committee Co-Chairs

Easter Sunday began in The Cottages with a "parade" of Easter bonnets. Many mailboxes were decorated with beautiful Easter bonnets and other festive decorations. Residents took this opportunity to walk around the neighborhood, view the pretty bonnets and spend some time "catching up" with their neighbors. It was a wonderful way to celebrate this

holiday! We are grateful to one of our residents who shared this idea last year when many churches were closed due to the pandemic. Since we couldn't wear our Easter bonnets to church, she suggested we put them on our mailboxes. This activity has gained popularity quickly and is sure to become an annual event!

Rivendell Calendar of Events - May 2021

Due to Covid-19, many events and activities are being held remotely in the month of May. Most groups are meeting virtually via Zoom. Occasionally there may be additional board-related meetings that may also be scheduled. For the most up-to-date information check the Rivendell website at www.rivendellcommunity.com

May 6 and 20...Bridge Group meets the first and third Thursday of the month. Contact Barbara Loe at 651-398-2256 for more information.

May 10...Rivendell Book Club will meet via Zoom at 7:15 pm. Details to be provided closer to the meeting date. The book under discussion is *The Water is Wide*, by Pat Conroy. Contact Adele Kellman at adele.kellman@gmail.com or 908-464-7003 for more information.

May 12...Board of Directors Meeting is scheduled for 6:00 pm. The meeting will be held via Zoom. Instructions to participate will be provided closer to the meeting date.

May 13...Communications Committee meets the second Thursday of the month at 7:00 pm. The meeting will be held via Zoom. For more information contact Kristine Nickel at 941-918-0016 or kristinenickel@comcast.net

May 13... Watercolor in the Woodlands is held the second Thursday of the month via zoom from 1:00 – 3:00 pm. All experience levels welcome. Contact Maria Ilioff at 607-427-4192 or milioff85@gmail.com for more information.

May 18...Rivendell Book Club II will meet via Zoom at 7:00 pm. The book under discussion is *A Woman of Importance*, by Sonia Purnell. Contact Maria Ilioff at 607-427-4192 or milioff85@gmail.com for more information.

May 18...Maintenance Committee (MC) meets the third Tuesday of the month at 7:00 pm. The meeting will be held via Zoom. For more information contact Chuck Pertile at noplans12@gmail.com or 847-337-3710.

May 25...Architectural Review Committee (ARC) meets the last Tuesday of the month at 4:30 pm. The meeting will be held via Zoom. For more information contact Greg Warner at 941-504-1710 or greg1790@gmail.com

May 27...Rivendell Euchre Group plays the fourth Thursday of the month at 7:00 pm. For now the group will play online using the Trickster App, which has audio and video capabilities. For more information or sign on instructions contact Mike and Annie Francis at 585-749-0430. All are welcome!

Social Committee is canceled for May. Contact Carolyn Kenney at kenneycsrq@gmail.com for more information.

Mix and Mingle Social at the Rivendell Community Pool has been put on hold. Contact Kathy Halaiko at halaiko@yahoo.com for more information.

Dine In and Dine Out Groups are canceled for May. For more information contact Kristin Ellison at kristinellison1@gmail.com

To make additions or corrections to the Calendar of Events, please contact Lesley Sterling at 703-919-0744 or lesley.sterling@yahoo.com

2017 Small Business of the Year

Blair Post, HAS, BC-HIS, ACA
Board Certified Hearing Instrument Sciences
American Conference of Audioprosthology

Hearty Referral

As a small business owner, the best compliment I can receive is a referral. I created a story to help my clients identify who might need my services.

When you dine out with friends, you may notice someone who keeps saying "huh" or "what". This indicates they can't hear well in a noisy setting and tends to be a first indicator of a hearing loss.

Some people take a long time to admit that they have hearing loss and are not eager to have their hearing tested. You might not be the first to ask them and if enough people ask, they might get the help they need.

Over the years, I have had new clients tell me they were out to dinner with friends who recommended they come see me. And now, I have the experience of having my referral suggestion taken to a whole new level. A lovely woman, with a great heart, was out to dinner with friends. When she heard the gentleman sitting behind her saying "huh" and "what" quite a lot. She turned around, interrupted him, and suggested he come and see me.

The happy ending is, he did come in. His wife had been begging him to get his hearing checked for a long time. Since a stranger said, "you are showing signs that you need to go see Blair". Since he admitted he might have a loss, I was able to help him hear better. Now, his wife is happier when they go out to dinner.

HOME OUR COMMUNITY CONTACTS DOCUMENTS RESIDENTS COMMITTEES BOARD

WELCOME TO RIVENDELL

The many recreational offerings and country feel of The Woodlands at Rivendell make it a highly desirable community. Located in Disney Florida, just minutes from downtown Sarasota, this suburban-style neighborhood features many parks, lakes, nature trail and more to fulfill the Florida lifestyle. The Woodlands at Rivendell offers residential choices from villas, estate and executive homes to maintenance-free patio homes. Nestled among 400+ acres of lakes, preserves and open spaces, the community was carefully planned to highlight and blend with its natural surroundings. The Woodlands at Rivendell is also directly adjacent to the popular Pine View School, a highly acclaimed educational facility for intellectually gifted students grades 2 through 12. Nature lovers will appreciate the proximity to Oscar Scheer State Park, located just south of the community and viewable from many homes.

The Rivendell Community Web Site is available at

Wildlife Window: BOBCAT

Stealthy, Secretive & Beautiful - Have You Caught A Glimpse?

By the Rivendell Ponds & Preserves Committee

Florida is home to two predatory big cats: the wild **Bobcat** and the Panther. The Bobcat (*Lynx rufus*) is the smaller of the two and is more likely to be spotted in the wild – or even in your Rivendell backyard. Have you experienced a sighting? Awe inspiring!

Appearance: Bobcats are about twice the size of a domestic cat. They are generally tan to yellowish brown with dark brown or black streaks. The under parts are usually white with black spots and the insides of the legs are marked with black bars. The ears are pointed with short, black tufts and the tail is short giving the appearance of being “bobbed” (hence the name “Bobcat”). The young have mottled or spotted fur with more distinct facial markings than the adults. A male weighs 20-30 pounds, females 15-25 pounds.

Habitat: Bobcats thrive throughout Florida in deep forest, swamps, and hammock land – including our own community wetlands and preserves. Thick patches of saw palmetto and dense shrub thickets are important as den and resting sites. In Florida, squirrels, rabbits and rats are the primary prey

species. They hunt at night using both ambush and mobile techniques. Very efficient hunters, they use their acute hearing and sight to detect prey at the slightest sound or movement. They can kill prey 10 times their own weight.

FUN FACT: Bobcats are very patient hunters and will change their hunt strategy on the fly (i.e quickly go from “stealth” to “chase”, as conditions demand). Some cultures believe that spiritually, the Bobcat can show us (humans) that we, too, must be patient in the pursuit of our goals. While it is important for us to have a strategy in our lives, it is equally essential that we be able to adapt to changing situations.

Protect their Habitats. Urbanization and toxic chemicals continue to threaten precious wildlife habitats. Let’s keep our ponds and preserves healthy and attractive for these wonderful Bobcats and other wildlife friends. We can enjoy their beauty and enhance our quality of life, plus keep our property values strong. We remind you to view the amazing P&P Wildlife Photo Gallery at www.rivendellcommunity.com/ponds.

***Bobcats are stealthy and efficient hunters.
Hopefully you have experienced a sighting in Rivendell.***

(Photo by Bob Frank.)

Let's Enjoy Our Preserves... Please Leave Them Alone. Your Actions Make a Difference!

Homeowners living near wetland preserve areas play a role to protect them. As part of Rivendell's HOA permit with the county, designated wetland, preserve and buffer areas adjacent to homes are inspected regularly. Any activity beyond a resident's property line is considered an incursion. Violations are enforced. Homeowners and renters are asked to comply with the conditions of the Rivendell Covenant on all preserves and common-ground areas.

Requirements are very specific. Please do not build, store, pave, nor disturb anything from preserves or buffer areas. No grass, gardening, nor vegetation can be planted, allowed to encroach, nor be mowed beyond your property line. Cutting or removing any vegetation is not allowed, nor is depositing yard waste into protected areas. Don't apply fertilizer within 10 feet of any pond, wetland or preserve.

For more information, including Rivendell land use restrictions: [Rivendell HOA articles](#). *Woodlands Word Feb. 2021* article: [Important Information If You Live Near a Preserve](#)

Rivendell Book Group Continues with Zoom for May

The Rivendell Book Group meets at 7:30 pm on the second Monday evening of each month. For the May meeting, we will continue to be meet virtually, but the group is discussing when it will be appropriate to resume in-person meetings. We are asking participants to log on 10-15 minutes early to avoid online glitches.

On Monday, May 10th, 2021, we will be discussing The Water is Wide, a memoir by Pat Conroy. Our discussion will be led by Lesley Glick.

If you would like to join the group at its next meeting, please contact Adele Kellman (adele.kellman@gmail.com or on 908-464-7003) to receive an invitation. We welcome newcomers.

What is Stormwater? Why is it Important?

By the Rivendell Pond & Preserves Committee

We can all be proud of our growing **Rivendell Natural Shorelines**, with LMZs and native aquatic plantings that help control erosion, filter excess nutrients, and improve our water quality. Our ponds are all interconnected and flow through our community into South Creek and ultimately the Gulf of Mexico. What we do in our own yard and community directly affects the health of our entire Bay watershed. For residents new to our community or folks seeking a refresher course, let's learn more about the importance of Stormwater and how it impacts our water quality.

What is stormwater? Stormwater is rain that falls on our yards, streets, parking lots, and buildings and then flows into the stormdrain system or runs directly into a pond, lake or stream.

What is a Stormdrain? Stormdrains are openings along curbs, streets and in parking lots. Rainwater enters Stormdrains and flows into nearby ponds and lakes via the storm-sewer system, eventually making its way to the Gulf. Stormdrain water does not go into a treatment facility (unlike household wastewater). Pollutants in this water can flow directly into our ponds and reduce water quality.

What is a Stormwater System? Stormwater systems are a tool for managing runoff from rain. Rivendell has "detention"

ponds designed to allow material to settle and be absorbed, removing pollutants before draining into the groundwater. LMZs and aquatic plants around the perimeter play a vital role helping to filter and absorb sediment in stormwater runoff.

How does Stormwater get Polluted? Every time it rains, the runoff washes anything in its path; soil particles, grass clipping, leaves, pesticides, fertilizers, oil, paint, pet waste, etc. into local ponds, lakes and the Gulf. Please limit the types of products you use around your yard that could hurt our waters and bays.

Could We Be Harming Our Waters? Especially this time of year, wind inevitably blows some debris into the ponds. However, homeowners and their landscapers should be careful not to let grass clippings, leaves and other yard debris get into our ponds – by mowers, leaf blowers, or manually. Ponds are not a receptacle for these materials - the stormwater system is not designed to manage this excess waste which can reduce its functionality, harming water quality.

How Can Residents Help? "Only Rain down the Drain!" Please help us keep the stormdrains free of debris to ensure the stormwater flows and filters properly. Follow Sarasota County's guidelines for proper fertilizer and irrigation. Enjoy the beautiful wildlife and appreciate the important role our stormwater ponds play. **Your actions do make a difference!**

*PLEASE! Do not allow Grass Clippings, Leaves or Any Yard Debris to get into our Ponds.
Our Ponds are not Waste Receptacles.*

Our ponds are interconnected; they guide stormwater flowing through Rivendell and into the Gulf. LMZs and plantings keep our stormwater system and ponds healthy by filtering and absorbing excess nutrients that help improve water quality.

Let's Keep Rivendell's Wildlife Habitats Healthy Join the Rivendell Nature Watch Team

By the Rivendell Ponds & Preserves Committee

Most residents agree; a major asset of Rivendell is its connection to nature. Designed to integrate our homes with ponds and nature preserves, our community provides incredible opportunities to enjoy nature from our own backyards. You can help us document the abundance of wildlife in Rivendell and also help improve wildlife habitat in our community by signing up for **Rivendell Nature Watch**. This group is being formed as part of a Rivendell grant proposal to Sarasota County.

- Do you enjoy seeing the amazing variety of wildlife in Rivendell?
- Have you taken a photo of an eagle or otter or any creature with your phone camera?
- Ever pondered about how the beauty of our neighborhood ponds and mature trees contribute to the health of the wildlife environment we enjoy every day?

Join the Rivendell Nature Watch and help us track our wonderful wildlife! Let's work together to keep Rivendell the best it can be for our wildlife and ourselves.

Join a group of community members who love our wildlife and want to help preserve and improve their habitat here in Rivendell. Sign up solo, with a buddy, or as small group for a fun and worthwhile experience. Any level of commitment is welcome and there are many ways you can contribute. Your efforts will be rewarded with a sense of community pride and the satisfaction of helping to keep our wildlife habitats healthy and vibrant.

For more details about the **Rivendell Nature Watch**, please contact **Bob Frank**, chair of the Ponds and Preserves Committee, (frank@ohio.edu or 859-240-1360).

- Enjoy seeing the diversity of our wildlife friends?
- Love taking photos of nature?
- Ever pondered the importance of our healthy ponds and trees to the well-being of our wildlife friends and their habitat?

(Bob Frank photos)

The Cottages Loses Longtime Resident from the MSC Communications Committee

It is with great sadness that we inform you of the passing of our dear neighbor, **Bob Axiom**. He was an original homeowner on the Circle and gave tirelessly to the community over the years. He previously served on the Board, Annual Election Committee, Facilities Committee, Pool Committee, and as a Rivendell Block Captain. He and his wife Jackie have cared for multiple homes on the Circle while neighbors were away.

Bob and Jackie famously walked the Circle every day. His caring heart and warm smile will be missed by all of

us. Our thoughts and prayers go out to Jackie and their family during this difficult time.

Bob's memorial service will be at 10 a.m. on Saturday, May 1st at Our Lady of Mount Carmel Catholic Church. The address is 425 S Tamiami Trail, Osprey.

All are welcome to come and join in the celebration of life for our dear neighbor and friend.

His was certainly a life well-lived.
